4. Open Issues, Risks and Go No Go

On this section we will present the unresolved critical issues and the potential risks that emerged during our testing process.

In addition to that we will outline here our Go No Go recommendation on whether the current state of the website aligns with our quality standards and criteria for going on “Live to Production”.

4.1 Unresolved Issues:

4.1.1 high ordering page Bug:

Description: When the branch is closed, the app is not informing the user and after choosing an address the app is not responsive.

Impact: High

Current Status: open.

Risk: Could lead to misunderstanding with the costumer and a risk to lose the customer.

4.1.4 Go No Go Recommendation:

After thorough analysis and considering all test results, we recommend a 'Go' decision for the release of the "דומינוס פיצה" application.

-To take the QA team and check the application from the beginning to end and improve the whole app.
